

60SDE

Powered by an MTD 196cc engine the 60SDE Ride on Lawnmower combines all the advantages of a Ride on mower with the performance of a lawn tractor. The gearless Transmatic 'Shift on the go' drive with 6 different drive settings (6 forward and 6 reverse) allows you to change gear easily whilst on the move, making it an extremely smooth ride.

It features a step-through frame and has no pedals or switches to get in the way, which means getting on and off is both easier and safer. You can effortlessly mow your lawn sitting down. This model is compact and manoeuvrable and attractive in design. It also fits through any normal garden gate and thanks to its small dimensions is easy to store when not in use.

Mulching Plug and Deflector come as standard.

Tow Hitch is Integral and a range of optional accessories are available.

Two year limited domestic warranty.
